Skills and Tools

Functional testing
Integration testing
Regression testing
Exploratory testing
API-testing
SQL
Agile, Scrum methodologies
Jira| Zephyr
TestRail
Postman
Swagger.UI

Qualifications

2021 - "QA.guru" test automation online course, the studied stack included: Java, Selenium, Allure Report, Allure TestOps, Selenium, Jenkins, RestAssured
2020 - "ISTQB Certified Tester Foundation Level", "Floating defects localization techniques"
2018 - "Source code analysis" online course
2017 - "Java basics for QA engineers", "SQL basics for testers"
2016 - "Software testing basics"

Work Experience

Luxoft

Senior QA engineer | May 2022 - May 2024

A global digital company with offices in 28 countries, 75th in Fortune 500 list

- Performed comprehensive functional and integration testing of a complex system using QA methodologies to enhance the testing processes.
- Redesigned the existing testing scenarios to increase the test coverage and reduce the time of test-case execution by 30%.
- Analyzed historical production bugs to identify defect clustering areas and developed a targeted testing strategy that significantly reduced critical production defects.

SmartStaffing

QA expert | Jun 2021 - Mar 2022

Worked for a bank and performed functional and integration testing of software designed to automate the process of creating personalized texts for the customers.

- Successfully organized the process of testing according to the Shift left approach to minimize the number of defects discovered during the late stages of the Software development lifecycle.
- Continuously worked on improving user experience by collecting responses and prioritizing defects according to user's requests.
- Worked in the quick release cycle and managed to decrease the number of hotfixes down to 0 in 3 months.
- Designed test cases and checklists based on user stories. Planned future testing cycles and provided reports presenting the current status of testing.
- Monitored and controlled all the testing-related metrics to provide product quality.

Jet Infosystems

Senior QA Engineer, Test Manager | Feb 2019 – Jun 2021

Top-5 IT service provider in Russia implementing over 1000 projects yearly.

- Planned and coordinated testing procedures of Siebel CRM and Oracle BI systems for a European automotive company (Hyundai Autoever Europe) for 20 branches in different countries.
- Orchestrated User acceptance testing to support successful product releases.
- Developed and optimized test cases to maximize the success of manual software testing.
- Designed testing strategies, scenarios, and checklists. Provided reports on testing status.
- Held demonstrations of the test model and new product features for the customers, managers and team members.
- Was responsible for the bug management process, issue identification and tracking using Jira.
- Trained and guided junior QA engineers in quality assurance standards, policies and procedures. Designed a roadmap and training documentation for quick and efficient onboarding of new colleagues.

Sberbank| Sberbank Technologies

QA engineer, Senior QA engineer | Apr 2016 – Feb 2019

Top-1 bank with 107,4 m. active clients and 80,6 m. active users of online-banking.

- Tested 7+ web and mobile (iOS, Android) banking products. Gained experience with Crashlytics, Firebase A/B tests. Performed testing of banking mobile application for European branches of Sberbank for the Czech Republic and Croatia.
- Analyzed defects from the productive environment.
- Performed management tasks: control of entry for testing environments, examining and collecting testing statuses, planning and setting tasks for analysts and developers, and holding demonstrations of products for clients.
- Controlled engineering activities to maintain work standards, adhere to timelines and meet quality assurance targets.
- Worked with internal and external stakeholders and team members on quality assurance for software components.

Education

Herzen State Pedagogical University

Bachelor of English Philology | Sep 2009 – Jun 2013

Specialization: Foreign language and computer linguodidactics
